

Half Magnesium Headform (mountaineers' helmet testing)

P/N: 100_01_HHM_C

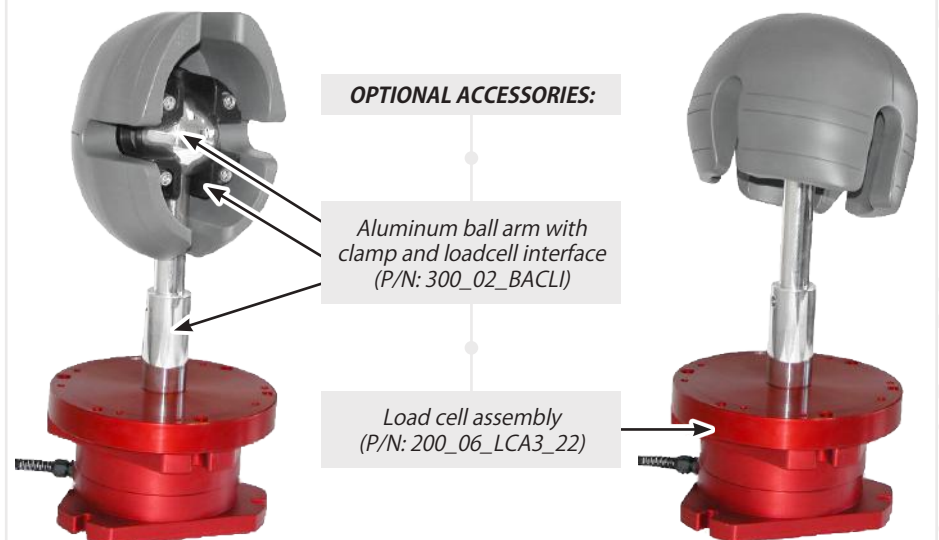

The half magnesium K1A headforms, with cuts for load distribution, are designed and manufactured in accordance with EN 12492 for mountaineers' helmet testing. Its geometry complies with EN 960.

FEATURES:

- Load distribution application
- Headforms comes with their technical datasheet
- Material: magnesium K1A
- 100% CNC machined
- Testing lines are CNC engraved
- Letter sizes available:
A - D - E - G - J - K - M - O
- Number sizes available:
495 - 515 - 535 - 555 - 575 - 605 - 625

OPTIONAL ACCESSORIES:

Aluminum ball arm with
clamp and loadcell interface
(P/N: 300_02_BACLI)

Load cell assembly
(P/N: 200_06_LCA3_22)

To be mounted on the load cell assembly (P/N: 200_06_LCA3_22) with the aluminum ball arm, clamp and loadcell interface (P/N: 300_02_BACLI) - Available separately
