Split Ring Clamp

P/N: 300_02_SRCH

The Cadex split ring clamp is used to lock the headform in a particular position and hold it during the impact test. The clamp's weight is adjusted to your testing setup to help you reach the required total drop mass assembly required by the standard.

FEATURES:

- The weight can be customized from 225 grams up to 1250 grams (± 5 grams)
- Made of magnesium, aluminum or brass alloy (depending on the weight required)
